

110 FirstLook[®] The throwable, rugged robot

Used by tactical officers, military personnel, emergency response teams and industry, the 110 FirstLook is an expandable, lightweight robot that provides immediate situational awareness, performs persistent observation and investigates dangerous and hazardous material while maintaining a safer stand-off distance.

It can survive 16-foot drops onto concrete and is waterproof up to three feet. Maneuverable in a variety of environments, FirstLook climbs obstacles up to 7 inches high, overcomes curbs, turns in place and self-rights when flipped over. The robot is ideal for initial discovery and investigations and is able to be deployed in a moment's notice. The throwable FirstLook is unmatched in size, weight and mission application.

Weight	5.2 lb (2.4 kg) mobility platform including integrated battery Optional manipulator, 3.7 lb (1.7 kg)
Run time	Up to 6 hours runtime
Mobility	
Speed	Up to 3.4 mph (5.5 km/h) 3 variable speed selections
Agility	Zero radius turn
Slopes	30° (ascend, descend and lateral)
Vertical Obstacles	7" (17.8 cm)
(Optional) Manipulator Lift	3.5 lb (1.6 kg)
Awareness	Four (4) fixed-focus Near infrared (NIR) cameras Two-way audio
Compatible	Works as radio repeater for all Endeavor Robotics robots
Expansion	One (1) payload port, multiple accessories, sensors and disruptors supported
Controller	Multiple controller options available

Built under ISO 9001 processes
