# **TECH TALK ON KM-IT PLATFORM**

**JANUARY 24, 2023 @ 10 AM**

## **International Perspective on Decommissioning with focus on 3D hazard aware digital and robotics technology based transformation**

Florida International University (FIU) is conducting a series of D&D Tech Talks focusing on several D&D topics relevant to the DOE EM Complex. On January 24, 2023, FIU will feature a Tech Talk from István Szóke, from the Institute for Energy Technology in Norway, who will share an international perspective on decommissioning with focus on 3D hazard aware digital and robotics technology based transformation. The presentation will be centered around some of the most dominant international trends related to 3D digital and robotics technology based transformation of nuclear decommissioning and waste management, and will present important international developments aiming at furthering these trends.

Join us for this informative session presented by FIU-ARC in collaboration with the Institute for Energy Technology. This virtual event will be held on the KM-IT platform.
